

The interdisciplinary **artspace bremerhaven** opens the doors in the "Alte Bürger" for art and culture of all disciplines. Artspace Bremerhaven turns streets, workshops, galleries, halls, studios, apartments, commercial spaces and vacant lots into a stage, a screen and a resonance space for art. **We invite regional, national and international artists to perform in unusual places, show us their ideas, their art and their enthusiasm.**

The artists are called upon to conquer new art spaces. The concept is very simple. Shortly beforehand you will be assigned a current vacancy, which you can use then with your art. Your challenge: Make the room your special art space!

Are you ready to use your art to turn extraordinary places into very special art moments for visitors? Then send us your idea!

If you want to find out more, just have a look at our homepage:
